SILENT BOOKS

EXHIBITION WITHOUT WORDS

This exhibition is about silent books.

There are no words in these books.

You look at pictures in these books.

Pictures tell the stories.

In silent books, every detail is important.

The colours are important.

The way characters look at things is important.

The pictures tell a story without words.

You need to think while reading the book.

It is good to look at the pictures slowly.

Carefully observe the details of the pictures.

Look closely at the details in the drawings.

Make up a story from the pictures.

Everyone understands the pictures differently.
People think about their own memories
when looking at pictures.
Every visitor makes up their own story.

You can see many types of pictures
at the exhibition.
You see interesting characters and places.
The pictures show serious things and funny things.

The message of the exhibition is simple.
You do not need words to tell a story.
The pictures show feelings.
Everyone understands pictures.

Have fun making up stories!

The Hungarian text was written by Dr. Rita Gönczi Farkasné.

The Hungarian text was checked by Borbála Bernáth and Miklós Szabados, who are experts by experience.
